NEW LOW LEVEL COOLANT ALARM KIT

This Kit will monitor your engine's coolant level and will immediately alert the driver when coolant is low.

Updated digital monitor can be mounted near the driver and boasts three choices of audible alarm patterns, it can even trigger louder external alarms such as your car horn! Accurately monitors coolant level with an electronic coolant surge delay built in to the module to help prevent false alarms.

The Low Coolant Level Alarm Kit consists of -

- Compact Electronic Alarm Module – Dimensions, 120 mm x 80 mm x 25 mm
- Mounting Pad
- Nylon Inline Sensor Adaptor
- Wiring Looms x 2
- Hose Clamps x 2
- Rubber Sleeve Adaptors 3 mm (1/8") x 2
- Installation Instructions
